DRIVE RESUMED TODAY

For Sale of War Stamps—Will Be Continued Until Allotment of $400,000 is Sold.

The intensive drive for the sale of war savings and thrift stamps was resumed this morning by the twenty-four committees that started the work yesterday. Members of the committees reported on the progress of their work this morning according to report made and in many instances large blocks of the stamps were sold to individuals.

The quota for this city is $400,000 and it is the intention of the committes in charge of the drive to continue the work until the allotment is raised. This means an average sale of $20 to every person in the city.

A complete record is being made o all purchasers and also all persons who do not purchase the stamps. The names of those who do not purchase, it is announced, will be sent to the Treasury Department in Washington.

FAVORS WAR PROHIBITION.

Adds Provision to Emergency Appropriation Bill for Native Wide Drought.

The Senate Agricultural Committee yesterday agreed upon an amendment to the $1,000,000 emergency agricultural appropriation bill providing for national prohibition.

Under the amendment the manufacture and sale of whiskey and wine would be prohibited after June 30, 1919, and the manufacture and sale of beer three months after the final approval of the bill by the President.

The amendment was framed by Senator Norris, of Nebraska, as a substitute for the pending one by Senator Jones of Washington. The Norris compromise was adopted by the committee by a vote of 8 to 3.

Chairman Gore said the bill with the new amendment would be reported to the Senate today, and that an effort would be made to bring it up for consideration at once.

She was 83 years old and the widow of Samuel Trunnell. She is survived by three daughters, Mrs. Annie Henry, of this city, Mrs. James Whalen and Mrs. William King, of Washington, seven grandchildren and fourteen great grandchildren.

FLIER FALLS TO DEATH.

Pilot Killed in Ohio and Cadet Loses Life on Texas Field.

Dayton, Ohio, June 28.—Archie Freeman, of Dayton, an airplane pilot, was killed and Robert Aohlers, of Day ton, an ignition expert, was seriously injured when an airplane in which they were flying fell at Moraine field, near here, yesterday. Aohlers, it is believed, will recover.

Fort Worth, Tex., June 28.—Thomas Clifford Anderson, of Dallas, Tex., a cadet aviator, fell from a height of 5,000 feet at Carruthers field, Benbrook, shortly before noon yesterday and was instantly killed. He was flying alone at the time. Anderson joined the aviation service at Trinidad, Colo.

Mount Clements, Mich., June 28.—Lieut. Allen B. Ebey, who was reported seriously injured in the airplane accident in which Lieut. John T. Boyle was killed Wednesday at Selfridge field, is said, today to be recovering. Lieut. Ebey's home is in Princeton, Ind., Lieut. Boyle lived at Fond du Lac, Wis.

Girls Working in Aeroplane Factory.

In an aeroplane factory in the West investigated by a state division of the woman's committee, Council of National Defense, a great deal of work is being done by girls. They pack parts, stuffing bags with excelsior; work on wire parts; cut copper pieces; bind wires with tape, and solder joints of wire. They put the "dope," a water-proofing mixture, on wings and body of the plane, and paint the United Staes emblem on the bodies. They do light carpentering and metal work and sew linen on the wings.

AMERICAN VALOR.

Isolated Unit Fought to Last Against Hopeless Odds.

Amsterdam, June 28.—Telegraphing from the German headquarters on the Lorraine fron under date of June 24, Herman Katsch, war correspondent of the Koelnische Volks Zeitung, says:

"In the course of our dashing attack to the north of Renners wood (northwest of Seicheprey), the American occupants of a position which had been untouched by our preparatory fire, refused to surrender and fought, hopelessly outnumbered, to the last. We could only bring in as prisoners two men who were overpowered."

The dispatch goes to say that these two prisoners declared their detachment had fough so desperately because they had been told that Germans tortured and mutilated prisoners, which, the correspondent, of course, qualifies as a base calumny.

HOLE THROUGH KEEL.

First Wooden Steamer Built at St. Johns, Fla., Narrowly Escapes Sinking.

Jacksonville, Fla., June 28,—An inch and a half hole bored through her keel, probably by a German sympathizer, before her launching Monday, came very near resulting in the sinking of the steamer Dancey in the St Johns River. The Dancey, which is the first wooden steamer to be built in local ship yards for the Emergency Fleet Corporation, will have to be docked immediately to have the hole plugged. She is being kept afloat only by the means of pumps.

When Superintendent S. H. Russell, of the J. S. Murdock Shipbuilding Company, which built the Dancey, went aboard the vessel Tuesday he discovered at least five feet of water in the hold of the ship, and investigation disclosed that the water was coming through a hole in her keel.

200,000 POLITICAL PRISONERS.

Munich Paper Refers to the Kaiser as "Wilhelm the Talker."

London, June 27.—As a striking illustration of the extent to which the iron hand is being used in Germany to crush the nation-wide discontent, the Express cites the fact that there are 200,000 political prisoners in the empire.

Much dissatisfaction has been caused in Germany, the paper learns, by the fact that the Kaiser's thirtieth anniversary of his accession to the throne was not marked by an amnesty decree.

The Munich Post in a remarkably frank article goes so far as to suggest that "Wilhelm the Talker is very different from Wilhelm the Doer." The paper adds that "under the whip of hunger," 1,946 children have been imprisoned in Berlin alone for stealing food.

"We demanded an amnesty for these and relief for all the poor and oppressed," says the Post. "Wilhelm II. promised to be the helper."

MOB GERMANY'S EMBASSY.

Angry Crowd Then Parades With Fragments of Kaiser's Pictures.

Rome, June 28.—During a celebration of the Italian success on the Piave yesterday, a crowd rushed to Caffarelli palace, which before the war was the seat of the German embassy, and which is still German property. All portraits of the German emperor were torn down and the Italian flag was hoisted over the building.

The fact that the palace is still owned by Germany has been the cause of great indignation among the people of Rome, who since the entry of Italy into the war have demanded that Capitoline Hill be freed from its "Teutonic stain."

The rage with which the people invaded the palace can, therefore, be readily understood. They overturned the throne placed there by the German emperor himself, tore some of the furniture to pieces, and after tearing down the portraits of the emperor, and raising the Italian flag paraded the main streets of the city with fragments of the emperor's picture as trophies.

At the Richmond Tonight.

How Sally Casleton, played by Viola Dana, becomes involved in the grim business of the night riders through the entrance of her sweetheart into the masked band; the night attack on a toll-gate; a mysterious slaying with Sally's trial and conviction as the murderess—to be saved from the gallows at the last minute—are incidents in "Riders of the Night," a Metro All-Star Series picture, which comes to the Richmond tonight, that make it a photodrama full of breathless suspense and compelling force.

"The Last Raid of the Zeppelin-L-21" showing the actual destruction of a German airship in its bombardment of London, will also be shown tonight as an extra attraction.

FUEL AND HOSE WAGON

New Apparatus Arrives For Fire Department. Donated by Private Subscriptions at Cost of More Than $1,000.

A handsome reserve combination fuel and hose wagon purchased by private subscriptions and turned over to the city on behalf of the doners by Fire Chief Kenneth W. Ogden arrived today and was greatly admired by those who saw it. The wagon cost more than $1,000 and is finished in red enamel paint with brass trimmings. It has a capacity of 1,000 feet of hose and about half a ton of coal. It is equipped with special Gardner carboretor and is twenty-two and one-half horse power, Ford-Dearborn Motor and was built by the Lyndall Motor Truck Company of Washington.

The new apparatus will be kept in the Relief Truck house and will be subject to the call of the chief.

The need of such a piece of apparatus has been a long felt want among the firemen of the city and in case of a fire of any magnitude it will be of incalcuable benefit.

HUNS TEMPT BELGIANS.

Hang Bogus Appeals From "Wives and Children" to Return Home on Barbed Wire.

The Germans have begun an insidious propaganda to wreck the morale of the valorous little Belgian Army fighting on the western front.

In spite of the fact that the Hun campaign is one of the cruelest and most subtle of the war, it has failed so far to accomplish its purpose, which is to induce the Belgian soldiers to quit fighting.

It is based on the fact that 9 out of every 10 Belgians have families living under the dominion of the invader in Belgium. The perverse mentality of the Huns has evolved a way to exploit this situation.

Special printed illustrated papers written in Flemish, are deposited during the night on the barbed wire in front of the Belgian positions. The illustrations are portraits of the families of Belgian soldiers.

Under them are printed what purposes to be appeals from the mothers, wives, sisters of the soldiers, imploring them to lay down their arms and join them in Flanders.

Some of them are pictures of Belgian soldiers who have been taken prisoners sitting with their wives and children printed with such legends as:

"After all, we are not so badly treated in Belgium.

All these photographs have actual names printed under them, and some appear to be authentic. Hundreds of these circulars are taken from the wire by the Belgians every day.

Besides these printed appeals, the kindhearted German postmen distribute other literature of the same character by airplanes which drop it over the Belgian trenches.

The tenor of it is all the same: "Quit the war and join us."

The only effect this lying campaign has had is to make the Belgians fight all the harder to drive the Huns from their precious soil.

B. B. Williamson Wednesday morning cut the throat of his wife at their home in Savannah, and immediately turned the razor with which he did the cutting on himself and slashed his own throat. The woman has a chance to recover, but Williamson is dead. Mrs. Williamson was attending her twelve-year-old daughter, who was ill in bed. Her husband leaned over her as if to embrace her and cut her throat. The daughter gave the alarm. Mrs. Williamson ran into the street with blood streaming from her wounds. Domestic unhappiness is given as the probable cause for the deed.

ONE SHOT TO DEATH.

Disagreement of Long Standing Results Fatally for One and Injures Another.

Rocky Mount, N. C., June 28.—Carl C. Viverette was killed and George W. Williams seriously injured in a shooting affair at Elm City yesterday which resulted from a long-standing disagreement between the two men. Both were residents of Elm City. Williams was rushed to Wilson, N. C., for medical treatment.

The nation's second great lottery is over. It took just two hours and two minutes yesterday in the Senate office building to determine the service liability of each of the 744,865 men who registered June 5.

SHIPS FOR UNCLE SAM

What the Program of the United States Shipping Board Calls for in Number of Vessels.

The program of the United States Shipping Board aims at not only meeting every present contingency but in providing for future needs as well. This program calls for the building of 1,856 passenger, cargo, refrigerator and tank ships. They range from 5,000 to 12,000 tons each, and will aggregate 13,000,000 deadweight tonnage. The United States Shipping Board is also arranging for the construction of 850,000 deadweight tons of steel, wood and concrete barges and tugs.

In addition, the United States Shipping Board has 245 commandered vessels, of a total of 1,715,000 deadweight tonnage, the construction of which is being completed by the Emergency fleet Corporation.

Not including tugs and barges this makes a total under the present program of 22,101 ships totalling 14,715,000 deadweight tonnage. To carry out the U. S. Shipping Board's program for 1918, 1919 and 1920 the sum of $5,000,000,000 will be needed. But it will give the U. S. the greatest merchant fleet that any nation has ever possessed. We shall then have, it is expected, a vast merchant fleet of at least 25,000,000 tons of shipping plying the seven seas to convey to our country everything that we possibly need and carrying from our land all of the things the rest of the world needs from us.

Do You Need Help, Mr. Farmer.

The United States Employment Service, of the Department of labor, will be in a position to relieve the farmer of any labor shortage that may arise during the coming summer months. Through the United States Public Service Reserve, Government clerks that have had experience on farms, have been enrolled to do emergency farm work for the period of their vacation.

It is of National importance that every individual give as much spare time as possible to the farm, so that nothing be lost in the production of food. The government clerks are responding nobly to this call to do their utmost on the farm during the summer months, and this should be of great assistance to the farmer.

For particulars concerning Emergency Farm Labor, any farmer that needs help in the vicinity of Washington, Virginia or Maryland should apply to the ofice of the United States Employment Service, 1410 Pennsylvania Avenue, N. W., Washington, D. C.

THREE LOST IN STORM.

Two Barges Break ffrom Tug, and One Founders in Driving Wind and Rain.

An Atlantic Port, June 28.—The barge Irene, in tow of the tug Joyce Cann, while trying to enter this port Wednesday night during a storm, foundered. The crew of three men are believed to have perished. A revenue cutter removed the crew from a second barge in tow of the tug before the craft was beached.

The tug and two tows, both heavily loaded, were caught in the storm some miles off the coast, and had a rough voyage to the port entrance. Becoming helpless in the driving wind and rain, and the towline parting, the Cann lost both barges in the darkness. While a revenue cutter responded to S. O. S. calls was rescuing the crew of one barge, the other, the Irene, foundered and sank.

When a mail bag was dumped on the distributing table in Searcy, Ark., recently a well-constructed bomb rolled out. The clerk made a rush for the door, spreading the news. There was a stampede of villagers who had collected at the postofice to get their daily mail. The bomb was turned over to Federal investigators.

THE POWER OF MUSIC.

Singing, singing from the heart,
Oh the joys our songs impart!
Jesus loves the tuneful art:
Singing from the heart.

These lines are from an old hymn and they are in order in these days. The singing of patriotic songs in the United States has spread over the land, and people passing along streets of cities, towns and villages hear in tones the inspiring notes of "The Star-Spangled Banner," "Columbia the Gem of the Ocean," and other national tunes instead of the ragtime notes of former years.

Congregations in churches from the Atlantic to the Pacific are singing "America," the inspired national hymn, with an earnestness never before experienced.

It is suggested that America is finding its voice. Together with thousands of cities and towns throughout the land. Alexandria is also discovering a talent for singing.

Old throats, rusty since childhood, are chiming again, while young throats, unleashed from that curious American diffidence at display, are fairly making the welkin ring.

Even folks who "simply can't sing a note" are making a noise which is proving far from disagreeable.

It began with patriotic impulse, which has always expressed itself in song. Then it spread from patriotic rallies to public "sing-songs," to the theatres, churches and schools—an irrepressible desire to shout right out in meeting, which is swelling into a mighty chorus across the nation.

In the training camps it is one of the spontaneous manifestations of battle preparation.

America's bursting into song is as sinister for the Prussian ravager as it is inspiring for our land and its Allies. It speaks of an America harmonious and united and fired with zeal for a righteous cause as nothing else could—expecting only the actual marshalling of Uncle Sam's hurrying legions.

The recent development of mass singing in the United States is one of the most striking musical events of this generation. More than that—it has a tremendous social meaning, and will have a beneficial effect in raising the standard of musical taste in this country. Already the tendency is marked in that direction.

The rag-time song and the rag-time soul may very likely both pass into the discard in this world test by fire which is melting the dross and separating it from the precious human metal.

THE WARRING ELEMENTS.

Snow has fallen to the depth of from one to three inches in several parts of Germany and frost has caused havoc to the fruit trees of that country.

The cold wave is considered to be an economic catastrophe. Berlin and Hamburg have experienced four days of uninterrupted rain.

Floods in the Paive have been auxiliaries of the Italians in forcing back the Austrian invaders, and it is stated that twenty thousand of Emperor Karl's army were drowned while attempting to cross the river in retreating from the defenders of Italy.

And now unfriendly meteorological conditions are causing Germany untold anxiety. But the Kaiser continues to tell his people that God is with him while they are deprived of the necessaries of life and awaiting the new crops of cereals.

The Frost King is a terrible enemy at any time, more especially when famine conditions are in the land.

The prophet Hosea in telling of the woes that were coming to Isreal said: "Thy calf, O Samaria, hath cast thee off, and it shall be broken to pieces. For the people have sown the wind and they shall reap the whirlwind."

"The calf of Samaria, refers to the procedure of Jeroboam after the revolt of ten tribes of Israel following the death of Solomon. This wily chief, anticipating that his people might go up to Jerusalem to worship, erected two golden calves, one at Dan and the other at Beersheba (the northern and southern limits of the land), and exclaimed "These be thy Gods, O; Israel!" This idolatry is used as a figure of speech denoting any ideal we worship more than the Lord our God.

HUN CRUELTY.

German frightfulness, ruthlessness and lust for unnecessary slaughter was disposed yesterday by a chaplain of the Canadian troops, upon his arrival at one Atlantic Port on a British steamer.

He was an eye witness of an aeroplane attack upon a hospital at Doullenes, France, on the night of May 29, and of the shelling of the wounded men and nurses as they were carried from the burning building. As he observed.

Surely God will never forgive the Huns for such acts. Nor can the comrades and fellow workers of those who were slain and injured.

There was no possibility of the German airmen having mistaken the character of the hospital building as it was brilliantly illuminated and searchlights were playing on the Red Cross flags. The fiends not only bombed the hospital which has been caring for about 38,000 soldiers monthly, but they flew back again and shelled the patients as they were carried out.

One of the bombs went through the roof, but did not explode until it landed in the operating room on the first floor.

An American officer was in the operating room at the time. So were two Red Cross women nurses, six orderlies and others. Every person in that operating room was killed. The explosion tore away huge sections of the walls, killing and mangling wounded soldiers in their cots. The hospital was set on fire.

Thirty seven persons were killed and over 100 were wounded in the raid.

It seems hard to believe that human beings could be guilty of such acts.

Three of those slain were women Red Cross nurses.

THE TRAIL OF THE SERPENT.

Russia is in a state of indescribable suffering. It is a frequent sight to see persons drop dead on the streets from starvation. Hundreds of famished citizens are ravenously digging among the rubbish heaps; other lick the paste off the street posters. Meanwhile bands of armed workmen are sent by the commune to prowl around the countryside and seize food from the peasants. Armed clashes, killings and burglaries are the order of the day. Everything political and military pales before the famine. The masses are making no pretense at resisting the iron grip of the Soviets, but are merely clamoring for bread, caring for nothing else. Heirlooms and family treasures go to the curiosity shops and pawnbrokers, so money may be obtained to buy a few small pieces of what passes for bread. A small lump of sugar sells for 50 cents.

LETTER TO THE EDITOR.

Editor, The Gazette:

Washingtonians who read your article in yesterday's paper telling of the scurvey treatment four of our citizens received on Saturday night at the hands of bootleggers in that city, who gave them vinegar when they had asked and paid for red liquor, should hang their heads in shame. I particularly regret the incident. It shatters one of my idols and I am plunged into deepest grief and woe. I had always looked up to bootleggers as honest, decent citizens. Alas, it would seem from this incident that some of them are not and it is up to you, sir, to warn our thirsty citizens to keep their eyes open in the future. If there are any bootlegers in Alexandria I am confident that they are above such knavish tricks. By the way, I would appreciate it if you would furnish me with the names and addresses of two or three reliable bootleggers in this city.

NEWS OF THE DAY.

Refusal by suffrage Senators to pair with their opponents led yesterday afternoon to the postponement of the national amendment after four hours debate in the Senate. There was an absolute deadlock. Neither side would budge. The suffragists were unable, if they paired, to command the necessary two-thirds majority. When they finally realized that there would be no comprise, their floor leader Senator Jones of N. Mexico, withdrew the amendment, at the same time announcing he would soon renew discussion, and threatening to prevent a recess of Congress until the amendment had been disposed of.

In a bitter attack against the imperial war policy of Germany, Socialist Deputy Haase, speaking in reply to Foreign Minister von Kuehlmann Wednesday in the Reichstag, delared the ruling party in Germany is the militarists and that the submarine warfare has proved a failure, as evidenced by 700,000 Americans in France, and predicted that a revolt in Russia would bring to Germany a life and death struggle. He also asserted that Austria began the war.

A dispatch from Columbia, S. C., says Captain P. D. Shaw, of the depot brigade at Camp Jackson, and Miss Pearle Pennington, a nurse at the base hospital, were drowend Wednesday evening in the Congaree River, about six miles from Columbia.

BIG PEACE STRIKE.

Amsterdam, June 28.—All work in Budapest has been stopped by a general strike, it was announced in the Hungarian parliament by Premier Wekerle, according to advices received here today.

Thousands of men are out. The socialists at Budapest have formed a council of workmen and have adopted a resolution with the following demands:

First—More food.

Second—Immediate peace.

Third—Removal of the police pending a complete change of the police system.

Fourth—Dissolution of parliament.

AUSTRIA FAILS IN EFFORT.

Unofficial Emissary Sent to Switzerland to Throw Out Feelers.

London, June 28.—Another Austrain attempt to throw out peace feelers viza Switzerland has failed, it was reported here today in press dispatches from Zurich.

These dispatches stated that Austria-Hungary, through an unofficial representative in Switzerland during the past few days attempted to discover the allied standpoint regarding "important questions."

The emissary failed completely, and returned to Vienna.

TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Thedford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Thedford's Black-Draught."

Your Winter's Coal Supply

On account of rulings of the U. S. Fuel Administration, it seems doubtful if Virginia will receive sufficient anthracite coal to supply the demands. If present rulings are maintained, this shortage will be very great in Alexandria and we earnestly advise our customers to put in a reasonable amount of bituminous coal as a safeguard against a coal shortage next winter.

We are now securing some very fine bituminous coal which we believe will work in all characters of coal burners but the Latrobe stoves.

Better Cooking by Electricity

Women have long known that electric cooking is cleaner, that it banishes all the dust and ashes of coal and wood and soot and fumes of gas. They have known that it makes the kitchen cooler; the air purer; that is the most convenient way to cook. Now they have the word of the women who stand for the most scientific cooking methods known, that electric cooking produces better results than any other means.

Let us demonstrate the various sizes of ranges and refer you to the satisfied electric range users.

VIRGINIA NEWS

Asking for damages to the amount of $5,000, H. Vaughan-Lloyd has brought suit for damages against Harry F. Sweet, former leader of the "purity squad," of Richmond on the ground of malicious intention to injure the good name of the plaintiff. Some months ago Vaughan-Lloyd was arrested by Sweet on the charge of interfering with an officer in the discharge of his duty. Sweet went into the baggage-room, which had been left in charge of Vaughan-Lloyd, with the intention of searching a trunk in the quest of liquor. Vaughan-Lloyd refused to allow Sweet to continue his search, saying that he was acting upon express orders. As a result Sweet swore out a warrant charging Vaughan-Lloyd with interfering with him in the discharge of his duty. When the case was tried in court Vaughan-Lloyd was acquitted.

William Sampsell, aged about 13 years; Raymond Viands, 12, and Elton Thomas, about the same age, have just come to grief after an experience of robbery and attempted train wrecking. The three boys left Luray on Monday night and walked to the town of Stanley, eight miles south, where they broke into the general merchandise store of Shryock & Fultz and stole quanties of eatables and firearms. The trio then sought to wreck a passenger train on the Norfolk and Western Railway near the scene of their robbery. By placing heavy obstructions on the track and tying heavy pieces of iron to the railing, it is believed that the lads expected to capture all the booty that might result from the wrecking of a fast passenger train. Fortunately the obstructions were discovered by section men a short time before the arrival of the train which was the intended victim. Detectives were soon on the trail of the youths, and they were brought to Luray. The boys were sent to the Virginia house of correction until they are 21 years of age.

Gov. Westmoreland Davis yesterday afternoon issued requisition papers with which a detective sergeant will go to Lima, Ohio, to bring back to ging. Waller's statement concerning automobile policeman, under indictment in Richmond with several other sleuths on charges involving bootlegging. Waller's statment concerning men "higher up" on the force was largely responsible for the removal of R. D. Sowell as chief of police. The grand jury, which indicted several policemen, recommended the removal of Sowell's successor, C. A. Sherry, chief.

The State Aerie of the Fraternal Order of Eagles, which met in convention in Lynchburg yesterday after electing officers for the ensuing year, adjourned yesterday afternoon to meet next year in Norfolk. The new officers are: President J. W. Henley, Norfolk; vice president, C. H. Causey, jr., Suffolk; chaplain, C. Vernon Sratley, Hampton; conductor, W. P. Roberston, Portsmouth; secretary, Hulst Glenn, Staunton; treasurer, Joel T. Brown, Petersburg; inside guard, T. J. Burns, Lynchburg; outside guard, J. M. Allen, Richmond; trustee, three years, S. I. Hirschberg, Richmond.

An advocate of the practice-what-you-preach method, Rev. H. B. Vaught, pastor of the Mary Street Methodist Church, Bristol, is in the harvest field aiding the farmers to harvest the bumper crop of wheat. He has cut the entire crop of wheat on one farm and is now seeking more wheat to cut. Mr. Vaught was born and reared in the middle West and is well acquainted with farming methods. In summing up his qualifications he said: "I can operate any make of binder or reaper and know the game from bottom up."

Mayor Ainslie of Richmond yesterday afternoon suspended Chief of Police Sherry, Captain George Pollock and Detective Bertucci, pending the hearings in the proposed ouster proceedings to be instituted probably today by Judge Richardson. Chief Sherry had previously suspended Policeman Strain, who will also come under the action of the judge.

The entire matter is now up to Judge Richardson, who, it is believed, will issue the necessary formal notices to the men concerned today. If this is done, it is expected that the entire proceedings will have reached an end within a few days.

MURDER OF SHELHORSE.

Peters Says He Can Prove His Slayer Owned Suit Case Containing Liquor.

Commissioner of Prohibition J. Sidneys Peters declares that his department has positive evidence to prove that James A. Davis, colored, an alleged bootlegger, who shot and killed Inspector J. C. Shelhorse Tuesday night on a Southern Railway train at Alexandria, owned the suit case containing forty-five pints of whisky. Mr. Peters said that it can be proved that Davis boarded the train at the Union Station, in Washington, with the whisky in his possession.

In regard to the shooting of Inspector Shelhorse, of the State Prohibition Department. Mr. Peters said: "Inspector Shelhorse was an able and fearless officer, who died in the discharge of his duty. We are all very much distressed by his death.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side...

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic."

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists. NC129

LEGAL NOTICES

VIRGINIA—In the Clerk's Office of the Circuit Court of the City of Alexandria, on the 27th day of June 1918.

Richard I. Latham, vs. In Chancery. Hattie M. Latham.

Memo. The object of this suit is to obtain for the complainant from the defendant, an absolute divorce from the bonds of matrimony on the grounds of wilful desertion and abandonment for more than three years prior to the institution of this suit; and for general relief.

It appearing by an affidavit in this cause that the defendant Hattie M. Latham is a non-resident of this State:

It is Ordered, That said defendant appear here within fifteen days after due publication o fthis order, and do what is necessary to protect her interests in this suit.

Increase in cost 54% - - -		$113,400,000

The Consumer's Bill for Meat

must necessarily have increased correspondingly, as Live Stock prices and meat prices fluctuate together.

When the producer gets high prices for his live stock, the consumer's meat bill must necessarily be larger.

During the period of the War, we will not sell an American Midget Marvel Mill, unless the purpose is to supply the local needs of a community, or our Government, with flour and feed.

DO YOUR BIT. Help the Government by saving the freight on wheat and flour. Relieve the railroads of this unnecessary congestion by establishing in your community one of these wonderful American Midget Marvel Roller Flour Mills.

And Make Money, Too

$150 to $1,000 per month can be made with this permanent, substantial and dignified business.

This wonderful self-contained roller mill is revolutionizing milling. Makes splendid flour at a better yield than the Government requires. One man without previous milling experience can run it successfully. Small cost, small power, easy operation enables it to make a "Better Barrel of Flour Cheaper." You can sack your flour under our nationally advertised brand "FLavo."

Our Service Department inspects your products each month free and keeps you up to quality. Sizes of mills from 15 to 100 barrels per day. You can start with the small size if you have $3,000 to invest. Sold on 30 days' free trial.

Write for our catalog and experiences of successful owners all over the United States.

CONSULT THE TELEPHONE DIRECTORY

A large percentage of the "wrong numbers" for which the operator is blamed is due to the fact that some people rely on their memory for telephone numbers, and give the wrong number to the operator, or perhaps call by name.

This practice causes annoyance to the person called in error and slows up the service.

Avoid inconvenience by consulting the telephone directory. It is issued for the information and benefit of the telephone-using public and is accurate and up to date.

Always consult the directory before making a call, unless you are absolutely sure of the number.
